

H – VILLAGE HALL SECTION 3

THE FACILITIES OF THE VILLAGE HALL & ITS LOCATION

50 SETS OF COMMENTS

I have no views

I would rather a new, larger hall with a recreational play area for children

H14 Of the options I'd prefer refurbishment of existing hall

H08 - there are a lot of people in the village who do not support the activities - I find activities are supported by people from surrounding villages attracted by interest in the particular activity / If we build a new hall in the field behind the current hall, we can have continuous use of a hall until the new one is finished

I originally felt a hall close to the top end of Holwell but then thoughts on hire of hall for private functions feel that it best stay where it is Does the community own present location of village hall? If so then obviously rebuild there. If not then new location nearer centre of village

Length of current village hall is okay but needs to be wider if replaced

If the hall committee of the last 5 years had maintained the hall instead of putting money in the bank, the Village Hall would be in a better condition today!!!

Re H14: No opinion.

Re H13: behind school / Re H14: Any of the above.

The outward appearance lets the hall down; it desperately needs a face lift. The hall itself has a good feel to it but is let down by the kitchen and toilets

Re H13: Both have strong opinion for current site.

H12 THERE IS ROOM FOR ENORMOUS IMPROVEMENT IN THE KITCHEN! BUT CONSIDERING THE INADEQUACY OF THE FACILITY IT IS KEPT AS CLEAN AS IT CAN BE. FRESHENING THE DÉCOR WOULD BE NICE / H14 ALL OPTIONS SHOULD BE PROPERLY CONSIDERED

RESITE HALL NEXT TO SCHOOL

THE PLANS TO MOVE THE HALL NEAR THE NURSERY WAS A GOOD IDEA. THE VILLAGE HALL AT HARMANS CROSS IS WHAT WE SHOULD BE AIMING FOR. INCLUDING A POST OFFICE IN IT WOULD GET MORE PEOPLE THROUGH THE DOOR. HOLWELL NEEDS A HEART, WITHOUT A PUB A VILLAGE HALL COULD BE THE SOLUTION

THE HALL HAS A GOOD FLOOR, GREAT ATMOSPHERE AND CHARACTER, IT NEEDS A NEW ROOF, CLADDING IN A WOODEN MATERIAL AND A NEW KITCHEN

H14 THE CURRENT HALL SHOULD BE PULLED DOWN AND REBUILT WITH PROPER INSULATION/SOLAR PANELS/HEATING ETC SO THAT IT DOESN'T SMELL SO BAD. I'M SURE MORE PEOPLE WOULD USE IT THEN

H11 H12 HAVE NOT BEEN THERE FOR SOMETIME SO UNABLE TO COMMENT

H12 THE VILLAGE HALL HAS PASSED IT'S BEST

H13 BY THE VICARAGE/BY NURSERY

H13 - Hall & recreation area should be adjacent / H14 - Need more space for hall - meetings room and storage

H12, H13, H14 - no views

Hall would be better sited nearer centre of Holwell

H11/12 Not familiar with VH Too new into area to know about it

H14 - with new kitchen

No opinion on this section

Building a larger hall on the same location

H13 If you build the hall on the current site, how will the village continue its activities?

The village could be without a hall, the one community space, for months if not years

This is not ideal Next door to the current site would be perfect.

Village hall needs 2 rooms at least, to allow 1 room for exhibitions etc without disrupting regular usage

H14 It's unique and charming as it is

I like the character of the current Village Hall I think it would be nice to preserve this

Also to create/enrich/enhance the plot with planting, picnic tables, BBQ possibilities, bonfire possibilities. Maybe a pizza oven or create a monthly camp fire Re H13: Village needs a centre with shop, school, village hall.

We have only just moved here - never seen inside the hut

H11 Too far out of main living area / H12 Don't go there often enough to comment

H13/H14 Siting of a new hall next to the nursery school would be our only choice

H11 Stairs to stage too narrow Main door needs attention

H14 What should be considered is a community centre Hall pub shop etc. but it would only be viable if run by volunteers and we would not be one of them

Build a new hall behind the present one and put the car park at the front! Easy

H14 leave well alone

DO NOT Build a brand new hall. The existing hall can be refurbished. There are grants available to do this There is no need to destroy the character of the existing hall

The current hall is cold, drafty and in need of rebuilding to stop the mice coming in before it falls down. Next to the current hall is ideal place for hall

H13 Adjacent to the current site / H14 how can this question be appropriate at this stage when viability (costs) are not know and no details of size or facilities are given

H14 Not large but include small meeting room Large enough hall for activities required

Inviting to hire for parties, weddings and out of town business functions/meetings

Modern toilets Modern kitchen Storage always needed / H13 Existing V Hall site could be a proposed building site for houses New V Hall be place opp Elm Tree Farm to the left of existing V Hall with rec. field behind it

H13 no preference

H12 Hedges and grass cutting better recently

It's a village hall not a social club Maybe you should rephrase the questions and include social club How many other villages have built big halls and are now struggling

Re H11 & H12: can't comment as not ever been in it other than to vote once.

Re H13: Either

Only been to vote!

The hall needs to be replaced. We have a good car park and if you change site you will need to get water and electricity on site which will cost extra money. The hall site is fine.
